- This figure is a map of the Green River area in southern Utah, showing the locations of numbered geological data sources. The map spans from approximately 110°00' to 109°30' longitude and 38°30' to 39°00' latitude. Key features include the Green River, Colorado River, and several towns such as Crescent Junction, Thompson, Cisco, Dewey, and Moab. Numbered circles (1-13) mark specific data sources, which are listed in the caption.
- FIGURE 4.** Sources of geologic data. Numbered sources, shown by colors, are keyed to “Cited and Selected Map References.”
- This figure is a grid-based topographic map showing U.S. Geological Survey 7.5 minute, 1:24,000-scale map names for the Green River area. The grid covers the same geographic range as Figure 4. Map names include GREEN RIVER, GREEN RIVER NE, HATCH MESA, CRESCEENT JUNCTION, THOMPSON SPRINGS, SAGERS FLAT, WHITE HORSE, HORSE BENCH EAST, GREEN RIVER SE, DEE PASS, VALLEY CITY, KLODKE BLUFFS, MOLIE HOGANS, CISCO, TEVILLE POINT, DUBINYI WASH, JUG ROCK, NERRIMAC BUTTE, THE WINDROWS SECTION, BIG BEAN, BOWKNOT BEND, MINERAL CANYON, THE KNOB, GOLD BAR CANYON, MOAB, and RILL CREEK.
- FIGURE 5.** U. S. Geological Survey 7.5 minute, 1:24,000-scale topographic map names that cover the map area.

geologic data. Numbered sources, shown by colors,
and Selected Map References.”

A map showing the locations of various Colorado towns along the 38°45' N latitude line. The towns labeled are Horse Bench East, Green River SE, Dee Pass, Valley City, Klondike Bluffs, Mollie Hoorns, Cisco SW, Dewey, Blue Chief Mesa, and Steinbach.
